SUMMARY OF QUALIFICATIONS

Data Specialist / Analyst for various types of systems as well as Full-Stack Web Developer with more than 4 years of educational experience in designing, implementing, and managing secure databases, including mapping / configuring networks. Ambitious with focus and dexterity to perform a vast range of tasks apropos data scraping operations for producing custom datasets as well as clean, standardize, merge, and explore data. Additionally, the aptitude to execute statistical functions, generate various types of machine learning models as well as descriptive analytics models to produce a variety of visualizations and comprehensive reports. Adept, versatile, and resourceful with numerous programming languages, software, and platforms for an extensive array of IT roles including building aesthetically appealing responsive websites with HTML, JavaScript, and CSS. Possess excellent written / verbal communication and leadership skills as well as the capacity to conduct work independently and / or collaboratively.

EDUCATION

Western Governors University

Durham, NC

Bachelor of Science: Data Management / Data Analytics

April 2024

- GPA: 3.0 / 3.0
- Data science / analytics procedures and tools, encompassing various combinations of languages as well as formats / methods to produce statistical graphics using PostgreSQL, Jupyter Notebook (Python and R), Excel, Power Bi, Tableau, and MATLAB.
- Data / information management and governance.
- Project management and IT leadership roles as well as IT business concepts / practices.

Pitt Community College

Winterville, NC

Associate in Applied Science: Computer Programming and Development

June 2018 - December 2021

Associate in Arts

June 2018 - December 2021

- GPA: 4.0 / 4.0 (cumulative – dual degree)
- Programming with SQL, Python, JavaScript, HTML, CSS, C++, and JAVA.
- Design, implement, and deploy databases, including networks / security with Linux, CISCO, and Oracle as well as NoSQL with the interchangeability of components such as MongoDB, Express, Angular, and Node.
- Working with virtual environments and containers as well as connectivity and deployment

TECHNICAL SKILLS

- **Programming Languages:** SQL, Python, R, JavaScript / JSON / jQuery / Express / Angular / node, C++, Java, HTML5, and CSS / SCSS.
- **Operating Systems:** Linux (Bash) And Windows (PowerShell).
- **Software:** pgAdmin4, SQL Server (SSMS), MS Office, Adobe CS5, Tableau, Power BI, Anaconda (Pandas and Tidyverse), MATLAB, Knime, and Wireshark.

- **Databases:** Excel, PostgreSQL, MS SQL, MySQL, and NoSQL (MongoDB).
- **Platforms:** Git/GitHub/Github.io, Google API's, Docker, and Heroku.
- **IDEs:** VSCode, Jupyter, PyCharm, R Studio, WebStorm, Dreamweaver, Code::Blocks, and SQL Developer.
- **Data Scrapping:** Python (Beautiful Soup), and R (rvest).

PROJECT EXPERIENCE

Data Analyst

Bachelor's Capstone

April 2024

- Analyzed World Data Analyst Jobs and Salaries 2020 – 2023 by merging, cleaning, and standardizing 5 datasets as well as produced an illustrated presentation of several dashboards in a story with Tableau. A comprehensive report outlining the datasets, processes, and analyses was assembled to convey the information gleaned from the visual models as well as the statistical significance and fit of testing the data models.

Website Developer

Portfolio 

May 2024

- Designed as well as deployed a responsive website with the utilization of JavaScript / JSON / jQuery, CSS / SCSS, and HTML. A portfolio showcasing projects and accomplishments was developed to demonstrate proficiency as well as the inclusion of a profile section.

Database Designer

Associate's Capstone

February 2020

- Design and implementation of a secure RAID RDBMS.
- Fabricated the DFD, ERD, and UML diagrams as well as an online help desk.
- Devised a plan addressing all phases of the Database Life Cycle as well as a backup plan.

ADDITIONAL SKILLS & CERTIFICATIONS

Udacity

Online

Data Analyst Nanodegree 

April 2023 - October 2023

- Culmination of 5 courses outlining universal aspects, strategies, and a range of methods regarding data analytics by means of multiple languages and applications.
- Data analysis as well as practical statistics theories and apposite use cases.
- Data wrangling as well as statistical and visual modeling.
- Data collection and analysis using R and ggplot.
- Supervised and unsupervised machine learning capabilities, techniques, and approaches.
- Data visualization functions and tools such as matplotlib, seaborn, and Tableau.

CIW

Data Analyst 

February 2023

- Imbided Big Data and containerization concepts / functionality as well as CRM software by consummating operations in R, with Knime, OpenRefine, and Google Cloud.

ITIL4

IT Service Management Certification 

December 2022

- kjhgdfghjkl
- fghjkl

CompTIA

Project+ Certificate 

November 2022

- kjhgdfghjkl;
